Data engineer with 1 years building and running production pipelines.

## Where I've Been

### **Analytics Engineer — Verdant Agritech**

2023-07 - Present

- Designed the nightly billing reconciliation pipeline, removing a manual month-end process that took two analysts three days.
- Built the customer 360 warehouse model, eliminating the most frequent cause of on-call pages.

## SKILLS

Databricks, Kafka, Fivetran, Terraform, dbt, Airbyte, Dagster, Delta Lake

## EDUCATION

Diploma in Software Engineering, State Technical University (2022)
